

Charter Films Superior in Every Way

In 1998, Charter Films of Superior, WI, made the conscious decision to build an advanced facility to provide the best possible film that is available in the world today. They started with a staff of 8. Today, through a commitment to growth and excellence, Charter Films employs over 100 people and is consistently on the leading edge of innovation attracting new customers worldwide.

Charter remains the only company in North America with blown film extrusion equipment exclusively from Windmoeller & Hoelscher, and we are proud to be their partner.

*Chris Trapp
CEO and Co-Founder of Charter Films*
