

# Ampac Flexibles

## Standing Tall in the Pacific Northwest

Giant trees and beautiful mountains are the hallmark of the Pacific Northwest. Among them, a flexible packaging manufacturer stands tall and proud: the Seattle, WA-based Performance Printed Films Division of Ampac Flexibles.

Ampac Seattle, previously Mohawk Northern Plastics, has plenty to boast about, including two VAREX blown-film extrusion lines and four NOVOFLEX presses from W&H producing plain and printed APEX3000<sup>®</sup> film in concert with associate divisions Performance Films, Performance Laminations and Global Pouches.

“We’ve consistently experienced outstanding quality and service from W&H. Ten years and six lines speaks for itself,” says Dan McFarland, President of Ampac Seattle and recipient of CMM International’s Converter of the Year award for 2009.

At Windmoeller & Hoelscher, we are proud to be partnered with Ampac Flexibles.
