

Anagram International's capabilities balloon.

Based in Minneapolis, Anagram International Inc. is the largest supplier of metallic balloons in the world. Delivering to more than 80 countries, Anagram's reputation for quality took it to the top in less than 20 years. To help maintain that momentum, they recently picked up a new NOVOFLEX® 8, 52" wide. Says V.P. of Operations Paul Ansolabehere, "We're essentially a short run shop. In one step, we've addressed our concerns for quality, for quick turnaround, and our ability to respond quickly in a trend driven industry." He adds that the NOVOFLEX® 8 is seemingly "designed by operators instead of engineers."

Want your own business to balloon? Look into the NOVOFLEX® 8 – perfect for high quality short runs and quick, economical changeovers.
