

Printing Profits with Coating Excellence International.

Based in Wrightstown, Wisconsin, Coating Excellence International is a leading converter of high quality printed packaging and plastic extrusion-coated and laminated products for the food and industrial packaging industries. Since their founding in 1997, sales have increased 800%. Perhaps their ASTRAFLEX® flexo presses have something to do with it. Because the central impression ASTRAFLEX® prints both paper and film, Coating Excellence can meet both the high volume and high quality requirements of its customers. Of course, none of this is new to Mike Nowak, CEI's President; they've just installed their fourth ASTRAFLEX®.

Mike Nowak, Coating Excellence International's President
