

Pliant Corporation proves that trust knows no boundaries.

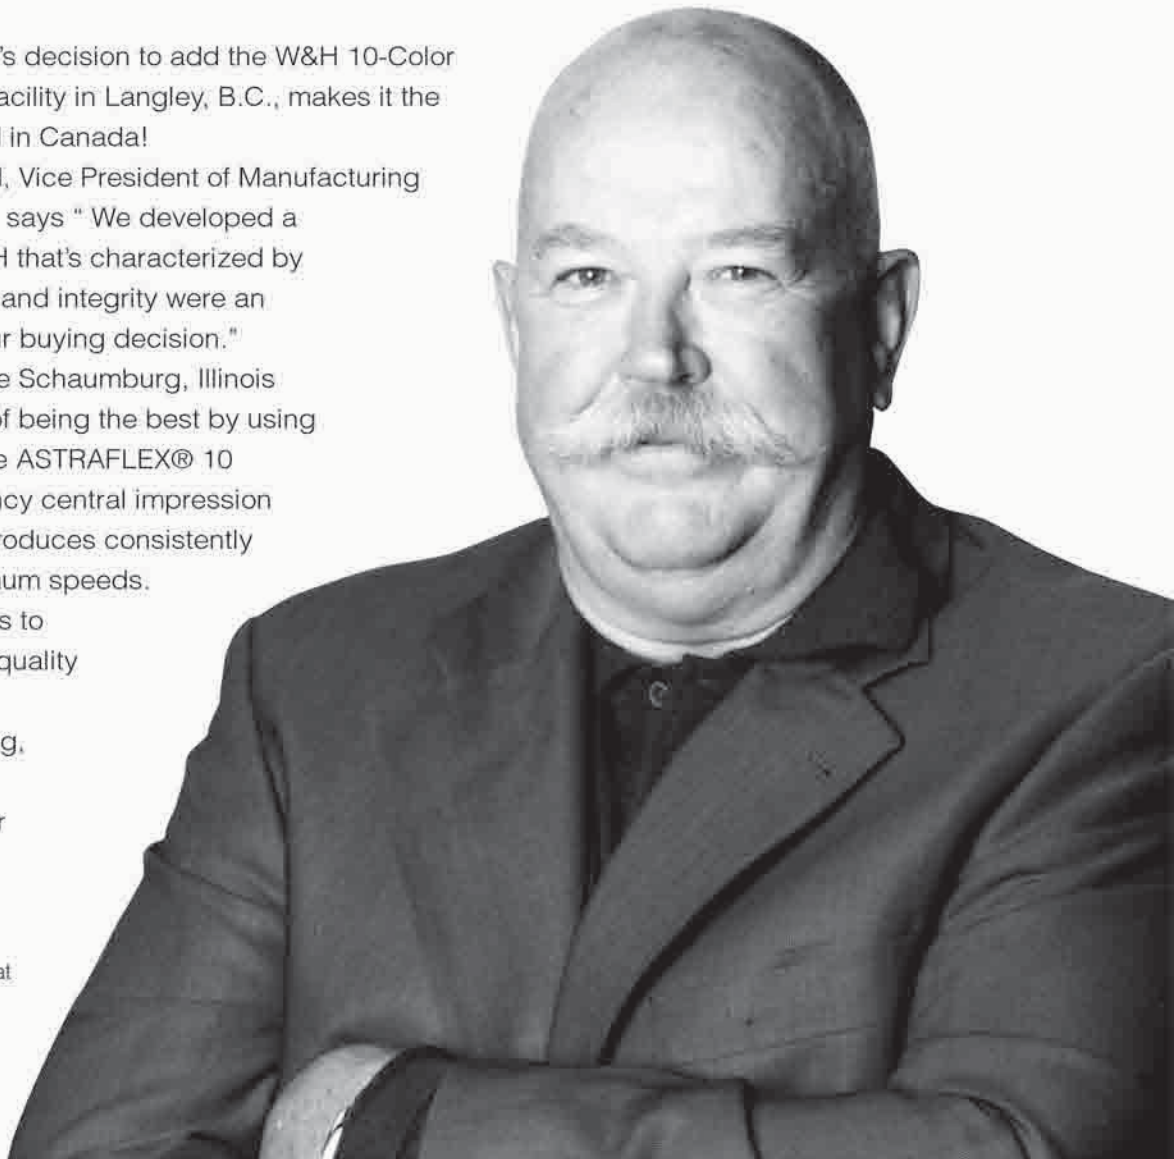

Pliant Corporation's decision to add the W&H 10-Color ASTRAFLEX® to its facility in Langley, B.C., makes it the first one to be placed in Canada!

Bruce Underwood, Vice President of Manufacturing at Pliant Corporation, says " We developed a relationship with W&H that's characterized by trust. Their reliability and integrity were an important factor in our buying decision."

Consistent with the Schaumburg, Illinois company's strategy of being the best by using the best, the 52" wide ASTRAFLEX® 10 modular, high efficiency central impression flexographic press produces consistently high quality at maximum speeds.

As Pliant continues to produce the highest quality bakery, sanitary, and agricultural packaging, we'll be right there in Langley, earning their trust every day.

Bruce Underwood, Vice
President of Manufacturing at
Pliant Corporation
