

# Star Packaging's Capabilities Shine

***"With the PRIMAFLEX® we have quicker job changeovers, less waste—and a lot of new business."***

Star Packaging of College Park, GA has been printing, laminating and converting flexible packaging materials in the form of roll stock, pouches and bags since 1972. To meet growing demand, Star recently installed an 8-color 52" PRIMAFLEX® CM press from W&H. The new press with its advanced features has increased capacity and brought in new customers for Star Packaging.

With superb print quality, performance efficiency and easy operation at an attractive price, W&H's PRIMAFLEX® can make your sales shine. Contact us to learn more about our complete line of printing, extrusion and converting equipment.
